from the days of election campaign for 2014 lok sabha northeast india occupied a special attention to narendra modi the then chief minister of gujarat after taking oath as india's prime minister how his visionary ideas helped northeast to become a development zone from a conflict zone is the main crux of this book this book tries to test the hypothesis that state versus community conflict in northeast india can be managed through integrated thrust over development and security policies the idea of connections between security and development thinking is not a new phenomenon but intermingling both as a nexus and using this nexus for conflict management is a post cold war phenomenon there are already some studies done on countries like sudan sweden liberia afghanistan etc to test development security nexus as a conflict management tool but no study has yet done on india where in recent times we see growing emphasis on this approach in the post cold war era we can underline a change in the mode of conflict management in india's north eastern part while many theorists and policy makers exemplify federal solution of violent ethnic identity demands as an ideal tool both central and state policies are relying more and more on development security nexus from the day of getting office as premier narendra modi has clearly shown his inclination towards this nexus for bringing peace and stability in northeast in different speeches and policy formulations he seems stubborn towards insurgent groups federal demands and emphasizing and implementing an integrated development plan for north eastern region alongwith the rest of india his well acclaimed policies like act east and neighbourhood first also helping in both development and securitisation of northeast in this book the propositions of this nexus will be empirically tested in five years of nda regime 2014-19 broadly this book will delve in the questions like what do we mean by development security nexus

how the development security nexus is differently imbued with meaning and ultimately employed in india what are the new policies of indian government during modi led nda government 2014 2019 what are the development policies and initiatives of nda government 2014 2019 in development arena of india s northeast what are the security measures of nda government 2014 2019 in ner how far development security nexus is successful in mitigating or managing conflict in india s north eastern part this study is qualitative research in which content analysis technique is applied to study variety of data sources in this study the governmental documents from different ministries like ministry of statistics and programme implementation ministry of development of north eastern region ministry of defence etc was interpreted to test the hypothesis some reliable non governmental sources like data of centre for monitoring indian economy pvt ltd environmental systems research institute and south asia terrorism portal etc was also examined for the information and their analysis as the topic is very much contemporary and we have paucity of secondary sources print media and multimedia sources were also considered from reliable sources i hope this book will be a benchmark for the society as well as policy making bodies as a comprehensive comparative database of the tested hypothesis that state versus community conflict in northeast india can be managed through integrated thrust over development and security policies

german chancellor angela merkel has been known to be critical about india s policies in kashmir but when on prime minister narendra modi s birthday in 2020 merkel sent him a note wishing him with the words liebe narendra dear narendra written in hand one knew that modi had arrived on the world stage modi 2 0 beyond the ordinary is an objective analysis of the prime minister his struggles and achievements his spiritual journey the men and the women in his life and his friends and enemies it also doesn t shy away from discussing the difficult questions surrounding modi godhra and his relations with india s muslims self confessedly author sunil sharan was once critical of narendra modi but after carefully observing him for years he realised that modi is indeed a transformational man today india stands rejuvenated its prestige around the world high the spirit of its people uplifted once the question used to be who after nehru now the question is who after modi modi 2 0 debates the possibilities
